This love I feel
Shows in you
Grows within
All we do

Truth has brought you
Close to me
Inner knowing
There to see

Belovedness has come to guide
To show the way from deep inside

Belovedness for all that is
Lights up all that's hers and his

Eons passed
Steps well worn
Boundless joys, and
Times forlorn

Knowing there would
Come a time
You'd arrive
And solve this rhyme

Belovedness, it fills my heart
Spilling into every part

Belovedness is teaching me
To be aware and really see

Belovedness is all we need
Let it plant it's loving seed

Belovedness will cultivate
Find yourself and there's your mate
