(verse 1)

In the space of silence
Between the words we say
Feel how much I love you
In ever growing ways

(verse 2)

In the bits of nothing
Between the words we speak
Feel how much I want you
Climbing to the peak

(chorus 1)

Move me and take me
Up the flowing stream
Hold me, be with me
As we create the dream

Stars rise and shine as
We travel through the night
Galaxies smile and
Guide us with their light

(instr break) <----->

(verse 3)

Between the words is knowing
Far beyond the earthly plane
Encoded information comes
As loving cosmic rain

(verse 4)

We shower in the playfulness
Tickled by the flow
As waves rush through our bodies
Causing every cell to glow

(chorus 2)

Stars rise and shine as
We travel through the night
Galaxies smile and
Guide us with their light

Move me and take me
Up the flowing stream
Hold me, be with me
As we create the dream

(ending)

Between the words is knowing
Hearts as one are glowing...
