(verse)

Graceful in every move
Your energy flows so free
Light beings come from the air
To be with you 'cause they see...

(chorus)

Divinity in your soul
Perfection in your smile
They make themselves known
To you as you own
The power you've had all the while

(verse)

You're gifted with beautiful form
Inspiring my heart to unfold
Being with you feels so warm
A blanket that softens the cold

(chorus)

Mesmerized by your stare
As sunlight reflects from your hair
Your loving rays show
All things how to grow, and
Heal with your presence and care

(instrumental chorus) <----->

(verse)

Graceful in every move
Your energy flows so free
Loved you the moment we met, and
Knew you'd spend time with me

(chorus)

Intelligent light from your eyes
You teach me to open my mind
I want you to stay
With love every day
And grow with me for a long time...

(ending)

Let's be as one
Have fun in the sun
Living each moment sublime
