

Frustration Factor

Lyrics by Lee Placchi (4-12-08)

Time with you is what I seek
Still you turn the other cheek
I just want you here with me
And you continue leaving me...Alone.

All the magic of our space
Tries to heal the darker place
Burning freezing mind reactor
In comes the frustration factor...Ahhhhhhhhoohh.

Frustration factor
Reflecting what I want to shift
Frustration factor
Build a bridge and cross the rift.

Frustration factor
Stay there if you like the pain
Or listen to a higher self
Tell you how it's all in vain.

(fast inst) <----->

The best of both worlds you create
Controlling ways create dark hate
You've got him to serve your sex
You've got me to ease the hex...Till when?

What will come of this slow movement
To the light and love of truth, and
Will the spell be broken of
Addictive patterns chaining both hands?
(Frustration factor)
Change the rules and let it go
Frustration factor
Find a higher place and grow.

(slow inst) <----->

Frustration factor
Reflecting what I want to shift
Frustration factor
Build a bridge and cross the rift.

Frustration factor
It don't have a chance with me
Send it's crazy gripping claws
To find a soul who wants to be...The slave.

Time with you is what I seek
Still you turn the other cheek
I just want you here with me
And you continue leaving me...Alone.
