(verse 1)

If I let you go
You might come back to me
And even if you don't
I can still smile and be

(chorus 1)

At first it might seem rough
Mental desert dry and tough
Just a little trust
Loosens and removes the rust

(verse 2)

Letting go with faith *(let go)*
Opens doors for us to grow
Letting go is key
To awaken and be free

Awaken and be free, free, free

(chorus 2)

So I journey forth
Searching for my missing piece
Found it in my heart
As my soul embraced release

(verse 3)

Letting go is how
I learn to live here and now
Letting go can be
Easy when you choose to see...

...the truth, truth, truth

(chorus 3)

Letting go with love *(let go)*
Creates the life I want to live
Strengthening my soul
Energy to keep and give
There's no sacrifice
When surrender is the way
Stepping into gifts
That are right here every day...

(ending)

...for me

to see...and be...letting go is free
