(verse) The sun began to set  
Colors glowing brightly in the sky  
  
The waves and sand they met  
Spraying warm and salty water very high  
  
And peace came over me  
As I watched the rising sea---  
----eeee  
I thought I'd like to be...

(chorus) On this beach forever  
(feeling so free)  
Thinking that I'd never---  
---ever want what I'd left behind  
  
Washing all my cares away  
Just to never be  
Back in chilly weather  
With no warming sun to see

(verse) The sun began to rise  
Spreading out the day before my eyes  
People all around  
Everybody moving to the sound  
  
Of a slower pace  
Noone here is caught up in the race  
M-m-m-m-m-m-m-m  
I just don't want to leave this place

(instrumental break) <----->

(chorus) On this beach forever  
(feeling so free)  
Thinking that I'd never---  
---ever want what I'd left behind  
  
Washing all my cares away  
Just to never be  
Back in chilly weather  
With no warming sun to see

(ending) And as it reached the end, I realized this my friend  
There's so much more to see, the world is wide and free  
  
I'd so much like to be  
On this beach forever, forever, forever...

*end with fade-out*
