*(verse 1)*

Learn to love all we are  
Like the boy who finds the star  
Journey true through joy and pain  
Bright sun warmly shines through rain

*(chorus 1)*

Reflected Love shows  
Eden is right here  
Growing all around us both  
Moving out the fear

Reflected Love beams  
Through drama and circumstance  
Lighting up our time  
Aligning the chance

*(verse 2)*

Feel it breaking all the rules  
Society has put in place  
Inner knowing penetrates  
Dimensions of time and space

*(instr break)* <----->

*(chorus 2)*

Reflected Love shows  
I see it and just stare  
Beauty, grace and passion  
Waiting there to share

Reflected love whispers  
Hold me close right now  
Grant me all my dreams  
Free, unbinding, perfect...Wow!

*(verse 3)*

The vision manifests as real  
Ruthless faith I call to you  
Heavenly alignment wheel  
Grant your blessing on us two

*(chorus 3)*

Reflected Love shows  
How to navigate  
Peaks and valleys of our minds  
Higher loving state

*(ending)*

Reflected Love...
