

Right Of Passage

It borders around our sanity
It captures all their hearts
Fences in their dignity
Insures we stay apart

Proud of our history as the brave and the bold
Trespass on the land we fairly stole
Our right to take the right to life??
Scared and hiding behind the knife

There's only enough opportunity to go around
Our interests first to feel safe and sound
Lucky to be born on this side
To defend the power to divide

It borders around our vanity
Mirrors the hypocrisy
When you build a wall in the sand
You've only gone and caged yourself in

Guard the invisible line that
Connects the teardrops
Families separated but they can
Still feel the same raindrops

Give the Right of Passage!
Equality for all humanity
Only thing you have to do
Is give the chance given to you!

For those fortunate enough to reach
The savage land of the free- We
Use and Abuse
Using the excuse
We help to feed the poor
Use and Abuse
Using the excuse
The low price of their sweat
Can make a man your whore

Give the Right of Passage!
Equality for all humanity
Only thing you have to do
Is give the chance given to you!
