*(verse 1)*

The continental divide  
The gap is too wide  
Will I make it out alive?  
Oh me, Oh my!

The bridge sways to and fro  
Nothing's below  
Try letting go?  
Oh hell, Oh no!

*(chorus 1)*

Collapse this wave  
Break the chain  
Uncharted road to pave  
A fresh new day

*(chorus shift)*

All I ever need  
All here now  
All I'll ever be  
All here now  
(REPEAT)

*(verse 2)*

So heavy the load  
Fork in the road  
The future unknown  
I'm all on my own!

This slippery slide  
Vortex of the mind  
Just relax and slide  
It's \*\*\*\*ing divine!

*(chorus 2)*

Attract the wave  
Ride tall and brave  
A million different ways  
To a fresh new day

*(chorus shift)*

All I ever need  
All here now  
All I'll ever be  
All here now  
(REPEAT)

*(ROCKIN' INSTRUMENTAL BREAK)*

*(verse 3)*

No more expectation  
Just this inhalation  
Endless beginnings  
No limitations

No more expectation  
Just this inhalation  
Endless beginnings  
No limitations

*(chorus 3)*

Dream the vision  
Make a new decision  
Decide to  
Enjoy the ride

*(chorus shift)*

All I ever need  
All here now  
All I'll ever be  
All here now  
(REPEAT)
