Tour operators

Tour operators have the right to require any individual to withdraw from a tour at any time if they deem the individual's conduct detrimental to or incompatible with the interests, comfort, well-being or harmony of the group as a whole. Transportation

All tours include round trip transportation. The best available local transportation is utilized in every port of call. However, guests should recognize that quality standards may vary. Air-conditioned vehicles are not always available. Cars, vans or taxis are often used in ports where coach transport is limited.

Guests with Disabilities

While NCL America strives to make its Shore Excursion program available to all its guests, inherent tour venue limitations and/or tour operator limitations exist that are beyond NCL America's control that limit the ability of guests with disabilities to participate in certain Shore Excursions. We urge such guests to advise the Shore Excursion department of disabilities when pre-booking tours and to further meet with the Shore Excursion staff on board to discuss their disabilities as they relate with the unique characteristics of each Shore Excursion. We typically recommend independent transportation for the comfort and convenience of guests with disabilities.

NANI MAU GARDENS & AKAKA FALLS

Approximate Duration: 4 1/2 hours

Level 2

The windward side of The Big Island is said to be a gift of nature. Departing the pier, you'll drive through Hilo's scenic Bay along Banyan Drive and pass Liliuokalani Park, filled with an amazing variety of tropical plants and flowers. Continuing on the Hawaii Belt Road, traveling in the direction of the Hamakua Coast, you'll pass through small villages en route to Akaka Falls, located on the slopes of dormant Mauna Kea Volcano. Here, water plunges over 420 feet in a sheer drop over a volcanic cliff. Next, it's on to the Nani Mau Botanical Garden and you'll discover why the 'Big Island' has another nickname: 'Orchid Island'. Before returning to the pier, you will also visit Big Island Candies, where you may sample Kona coffee, hand-made cookies and candies, a big favorite to this island.

Note: Some walking over damp and slippery surfaces, including several steps, is required. This tour is not wheelchair accessible due to the pathways and steps at Akaka Falls.

MAUNA KEA – WORLD'S TALLEST MOUNTAIN

Approximate Duration: 6 hours

Level 2, Meal, Age Restrictions

Mauna Kea Volcano measures 32,000 feet from its base to its summit at 13,796 feet above sea level. This makes it the tallest mountain in the world, and the most sought after astronomical site, with 13 telescopes representing 12 countries scanning the heavens and looking beyond the stars to galaxies far beyond. Home to the most powerful observatories and telescopes, including the Keck Telescope which has the world's largest mirror, it is also home to the cultural heritage of the Hawaiian people. During the last Ice Age, Mauna Kea was heavily glaciated and with the mixing of ice and molten lava it formed a dense rock that ancient Hawaiians quarried to make durable blades and adzes. Your "Sea to Sky" experience will start as you depart from the pier in an air-conditioned 4 x 4 van, making your way through the historic town of Hilo northward towards Mauna Kea. The ancient Hawaiians also considered it the home of the Female Deities, and of their spirituality that brought life to all below. It was the meeting place of Heaven and Earth and the burial place of High Chiefs. The view atop Mauna Kea can only be described as "Majestic", with the clouds often below you. This tour includes a stop at Onizuka Center for International Astronomy at 9,200 feet and the world's largest telescope at Keck Observatory (weekdays only). A journey few experience and none forget, the closest you'll get to the sky without leaving earth.

Note: Participants must be over 16 years of age (State Requirement). Sandwiches, water and snacks provided. The Visitor Center also has coffee, candies and souvenirs. Oxygen is carried for emergencies. This tour is not recommended for pregnant women, persons suffering from respiratory disorders or heart problems. Jacket, long pants and comfortable shoes are recommended. Warm parkas are provided, as the summit may be cold. During winter, rare overnight storms can close the summit road without warning. In these cases we will provide an alternate tour but cannot visit the Summit Observatory area. When Keck is closed we will try for a visit to one of the other open facilities.

DISCOVER HILO – WAVES & WATERFALLS

Approximate Duration: 3 1/2 hours

Level 2

Experience all of the best things about Hilo in one tour – visit Akaka Falls, the Tsunami Museum, the Shinmachi Memorial, the historic King Kamehameha Statue and a stop at Big Island Candies to stock up on world-famous hand-made Hawaiian treats – all in the comfort of an air-conditioned mini-coach. This tour takes you along the scenic "Old Road" through lush rainforest en route to magnificent Akaka Falls plunging 420 feet over the sheer cliffs of dormant Mauna Kea Volcano – take this opportunity to photograph some of the island's most dramatic tropical foliage. At the Tsunami Museum you will watch an educational film about the awesome power of the Tsunami, including real footage of the Tsunami of 1946 that devastated so much of Hilo, and listen to informative talks given by locals. Now your visit to the beautiful Shinmachi Memorial – erected in honor of the many residents of Hilo who lost their lives to the Tsunami of 1946 – will be even more powerful, as you will understand the magnitude of the devastation caused by the powerful tsunami. Now you can say you have really "done Hilo!"

Note: Participants should wear comfortable walking shoes. Dress in layers appropriate for variable weather conditions, including rain. Some walking over damp and slippery surfaces, including several steps is required. This tour is not wheelchair accessible due to pathways and steps at Akaka Falls.

En route, you will stop at Laupahoehoe Point with its spectacular shoreline; Waikamalo Park with its scenic stream and tropical plants; and several beautiful waterfalls, one of which has amazing botanical gardens. SECRETS OF PUNA

Approximate Duration: 6 hours

Level 2, Meal

Climb aboard a luxury 4 x 4 SUV for a very memorable and exciting adventure to Puna, located on the southeast corner of the Big Island and home to some of the world's most spectacular natural sights. Kilauea Volcano has been erupting continuously since January 3, 1983 and has added more than 600 acres of land to the island. This creation also came at a price. As we set off on our journey, sit back and relax as we play for you an audio visual onboard showing footage of the eruptions and hearing firsthand stories of life in Kalapana from former residents who witnessed the destruction of their homes and lives only 15 years ago. During this venture you will visit the site of what was once known to be the finest black sand beach in the world, Kaimu, entombed since 1990 under 75 feet of lava. Then we stop at dramatic 75-foot high lava cliff overlooking the brilliant blue waters of the Pacific. Here you will enjoy a gourmet lunch and refreshments including champagne and locally brewed mehana beer while you admire the views. After lunch we continue on to the village of Kapoho, destroyed by the eruption in 1960 before making a stop at the secret volcanically heated saltwater pool, where you can snorkel if you wish or just take a swim to cool off. Our final destination is to Lava Tree State Park for a short walk, where in 1790 a lava flow overran the jungle and Ohia trees encasing them forever in lava.

Note: Participants must be in good health and able to walk over uneven ground. We recommend you wear a swimsuit under comfortable clothing, walking shoes, a light raincoat and bring along sunscreen and a hat. Snorkel gear and beach towels are all provided. Lunch, snacks and beverages are also included throughout the day. This tour is exclusive and only accommodate up to 7 people per vehicle.

EXPLORE THE LAND OF FROZEN FIRE

Approximate Duration: 4 1/2 hours

Level 2

From the pier, in an air-conditioned van, you head to the "Wild West" Pahoa Town and Lava Tree State Park, on the eastern rift zone of Kilauea. In 1960 the massive Kapoho Lava flow engulfed the area with enough lava to pave an eight-lane highway four times around the world. Today you can see the lava tree molds formed when lava surrounds a tree, freezes against it then drains away. You'll visit Ahalanui warm springs, with its volcanically heated 90-degree water, then drive along a stretch of highway that often floods at high tide. Along the way and at brief stops, you will view the dramatic and beautiful scenery formed when lava meets the sea: cliffs, lava tubes and blow holes. At Kaimu, once the site of a famous black sand beach and a small town, both destroyed by a 1990 lava flow, a stop is made where you can walk on the "Frozen Fire" and view the active volcanic vent in the distance. You will visit a standing survivor of the eruption, Uncle Robert's Hawaiian Village and Snack Shop, where you can purchase beverages, and view a picture exhibit showing information of the lava you just walked on and the area prior to the 1990 lava flow.

Note: Some walking on uneven ground is required. Participants must wear closed-toe shoes. We recommend that you wear comfortable clothing.

CIRCLE OF FIRE HELICOPTER

Approximate Duration: 2 1/2 hours

Flight

See earth's most geologically active environment, the Kilauea Volcano, on a thrilling helicopter ride. This remarkable flightseeing tour emphasizes the most current areas of volcanic activity. You will fly over Kilauea's most recent eruption sites and follow the surface activity down to the devastated village of Kalapana. View lava flows, the Puna Forest and black sand beaches, formed of lava that has been cooled by the water and ground smooth as glass by the ocean. In the course of your tour, you will receive an informative commentary from your tour guide/pilot over an individual Bose headset.

Note: Approximate flight time is 45 minutes. **THIS TOUR IS NON-REFUNDABLE.**

DISCOVER KILAUEA – TWO WAYS

ITO-629

Approximate Duration: 3 1/2 hours

Level 2, Age

Explore the natural wonder of Kilauea in two unique ways! Kilauea is the most active volcano on the planet, continuously erupting since 1983. Leaving Hilo we travel south to Kalapana, while the story of this region as told by former residents, plays on the onboard multi-screen video system. Approaching the area we go off road across recent lava flows to this ancient Hawaiian fishing village that was destroyed in 1990. Our stop here allows you time to explore the buried Kalapana and you can look for surface outbreaks and ocean entries. Continuing the journey we travel to the Kazumura Cave system, the longest cave in the world with over 40 miles discovered and waiting to be explored! Lava once flowed through this cave system from Kilauea on its way to the sea. Your expert guide will be there to greet you on arrival and take you down into the mountain for a subterranean expedition of Kilauea you'll never forget! Stalagmites, stalactites and flowstones are just some of the amazing natural formations left behind from the searing heat of lava flows. The cool forest hovering over the cave is a spectacular backdrop for a moment of relaxation and refreshments after your cave adventure, the perfect place to enjoy organic tropical fruit salad complimented by your choice of beverage including water, juice, soft drinks and locally brewed beer and champagne. This is certainly the perfect way to end your two way discovery of Kilauea.

Note: Participants must be at least 8 years of age. This tour requires a moderate amount of activity; participants must be in good physical condition and comfortable with walking over uneven terrain. If you have any back problems, existing heart conditions or are pregnant, this tour is not for you. You must wear sturdy closed-toe shoes; we recommend comfortable clothing, sunscreen, sunglasses and a hat. You will not see molten lava on this tour; natural features change daily.

MOLOKINI & TURTLE ARCHES SNORKEL

Approximate Duration: 5 hours

Level 2, Meal

Departing from the pier, take a scenic drive to Ma'alea Harbor where your catamaran will depart taking you across the channel to Molokini which lies between Maui and Kahoolawe. Molokini, a crescent moon-shaped islet located less than three miles off Maui's southern coast, lies along Haleakala's southwest rift zone. Scientists at the Hawaiian Volcano Observatory believe that Molokini, whose summit rises about 160 feet above sea level, last erupted about 230,000 years ago. While many geologists believed that the islet was a fairly young volcanic formation, recent evidence suggests that Molokini is much older – possibly older than Haleakala Crater itself. The ocean around Molokini was declared a marine preserve by the State Marine Life Conservations District in 1977. Its crescent shape acts as a fortress that provides protection from waves and powerful currents, making this area one of the top ten snorkel sites in the world and home to more than 250 species of fish including surgeon fish, tangs, parrot fish, Moorish idols and more, some of which are endemic to Hawaii. No matter what part of Molokini's undersea world you choose to explore, you'll encounter crystal-clear waters and schools of colorful fish. Count on us to point out the unique sights you'd easily miss on your own by taking part in our exclusive guided reef tour led by our marine naturalists. We specialize in kids and beginners! After snorkeling at Molokini, the boat makes a second stop at Turtle Arches where you can swim, snorkel and may encounter the Hawaiian green sea turtle!

Note: This tour is available for guests returning to the ship or with flights departing Maui after 5:00 pm. Occasionally weather and sea conditions make it unsafe to visit Molokini Crater. In this case, the Captain will take you to other fabulous snorkel sites off of West Maui. We reserve the right to choose alternate snorkel sites depending on wind and sea conditions. All snorkel gear and flotation devices are provided. Continental breakfast, delicious lunch, refreshments, all snorkel gear, flotation devices and instruction included.

The terrain upon which The Dunes is built is prime, unspoiled linksland – million-year old alluvial sand dunes – almost prehistoric in nature. Holes weave up and down, through and around 60 foot-high sand dunes located in the heart of central Maui, in what is known as the Kahului Isthmus. It is here that two ancient volcanoes met to form Maui, "The Valley Isle". Golfers in search of a total Maui golf experience are encouraged to visit The Dunes.

Designed by Robert Trent Jones Jr., the Makena North Course opened in 1993 to rave reviews. The North Course feels more like a nature walk than a golf course, with captivating mountain views of Haleakala Crater and sweeping views of the blue Pacific Ocean. Hawaiian rock walls remain where they were found, and natural gullies and stream beds are left intact. Sharing the spirit that embodies the Makena Resort, the South Course provides the serenity and tranquility many golfers are looking for. With its natural rolling fairways, undulating greens, and breathtaking views of the ocean and mountains, the South Course is a favorite among many Maui golfers.

Rated as one of the best new courses by Golf Magazine and Golf Digest, the Wailea Emerald is akin to a lush tropical playground. But don't be fooled by the Emerald's pleasant appearance. It is a superbly designed course created for pure golf enjoyment, regardless of one's handicap. Measuring 6,825 yards from the back, the Emerald features four to six tee boxes on every hole, allowing players to tailor the course to their playing level. Notable features include a large double green shared by holes No. 10 and No. 17. Fronting the green is the only lake on the course. The Wailea Gold Course is the most challenging of Wailea's trio and home to the Wendy's Champions Skins Game. Designed by Robert Trent Jones Jr., it has been ranked among the country's best new courses by Golf Magazine and Golf Digest, and one of the world's best designed by the readers of Conde Nast Traveler. The Gold's 200-foot elevation change from top to bottom enhances the numerous ocean and mountain vistas available from virtually every hole. The course has been labeled a "thinking player's" course because it demands strategy and careful club selection to be played well.
